

SCIENTISTS FOR PALESTINE

Created in 2015 by theoretical physicists in the UK

Now almost 100 members
in science, engineering, medicine, and social sciences
across Europe, North America, and Palestine

Mission Statement

promote science and support the integration of the occupied
Palestinian territories into the international scientific community.

What S4P does

Palestinian Advanced Physics Schools

2016 Arab-American U.
2017 + 2019 Birzeit U.

In the future:

Expand topics into medicine, engineering, data science...

New locations: hopefully Gaza

What S4P does

International Meetings on Science in Palestine

2018 Cambridge UK
2018 Columbia U. (NYC)
2020 MIT

In the future:
New locations, hopefully in the Middle East

SCIENTISTS FOR PALESTINE

Long-term Goals

webinar series!

mentorship and exchange programmes

scholarship programmes

business, innovation, entrepreneurship programmes

more work in medicine! (more at the end)

SCIENTISTS FOR PALESTINE

Want to know more?
Want to get involved?
Have ideas for projects?
